TO WHOM IT MAY CONCERN

Mr YEUNG Man Lung

I gladly write this reference letter for YEUNG Man Lung (Ken) who was engaged as a Software Engineer (Winter Internship) at Slash Limited from 18 December 2020 to 31 January 2021. Ken is a proactive and hardworking person who can put the best efforts into his work, and consistently produce a high standard of work. During his time with us, Ken has proven himself to be a thoughtful, well-organized, and enthusiastic employee who made a huge contribution to the team.

Ken was responsible for writing an Android app, PinShift Manager, for one of our services PinShift. With his can-do attitude, Ken has also demonstrated his eagerness and capability to learn. His experience with Android app development was limited at first, but he had made an extra effort to learn how to use Android Studio, use the SDK and immerse himself in the Android developer community. As PinShift Manager is a software with some complicated UI components and functionalities, his ability to learn and complete the app from development to testing and debugging in only 1.5 months was impressive. He also possesses high communication skills and collaborated with other colleagues seamlessly. He did not hesitate to suggest UI/UX issues, discuss technical problems, and ask questions humbly.

I strongly recommend Ken as a competent individual and I am confident that his professional experience and personality traits will make him a tremendous asset to any organization. Please do not hesitate to be in touch if you have any further questions.

Yours truly,

Taylor Tsang

Director, Slash Limited
